 - Electricity meters are required to register the energy consumed within an acceptable degree of accuracy. Any significant error in the registered energy can represent a loss to the Company and this loss is to be billed to consumers as per norms.
 - To find out the excess connected load and penalize the consumers as per rules.
 - To carry out meter ratings as per KERC norms within stipulated time.
 - To trace the faulty meters and replace with good ones.
 - To carry out test checks of energy meters particularly in water supply installation and power installations.
 - To trace the theft of electricity, meter tampering, etc.
