PREAMBLE:

The Electrical accidents are becoming serious issue in HESCOM. It is seen that the electrical accidents occur due to the ignorance of the consumers and public regarding safe usage of electricity. Also KERC is viewing this very seriously. Hence HESCOM is having social responsibility to bring safety awareness to consumers and public and thereby reducing electrical accidents and saving lives of consumer and staff alike.

CIRCULAR

Sub: Safety awareness to consumers and public and thereby reducing electrical accidents in HESCOM.

The following programs are proposed :

- HESCOM is having 83 sub divisions and each sub-division have to arrange for two safety camps in June month . The Assistant Executive Engineers (Ele) of respective sub-divisions are responsible for organizing the safety awareness month in co-ordination with DSM team which shall involve local consumers, contract labours, public and the school children including college students. The Officers / Staff shall educate the consumers and children about the safe usage of electricity and safety pamphlets, safety stickers shall be distributed to the participants. The above camps shall be recorded and uploaded to Facebook and You tube.
- Also, the AEE and their staff shall visit different schools and educate children regarding electrical safety. The Officers / staff shall visit Gram Panchayat Office, Zilla Panchayat and town Panchayat office's and educate the consumers public and children regarding safe usage of electricity and the safety measures to be taken in case of any untoward incidents regarding electricity.
- **Hoardings** : Places are to be identified for placing hoardings .
- **Pamphlets/stickers** : Different types of pamphlets/stickers for urban areas and for rural areas shall be printed and sticked or distributed during bill payment, meetings, and by meter readers during door to door meter reading.
- **Local TV/Radio channels** : Safety messages shall be narrated at regular intervals and safety measure shall be telecasted in local TV/Radio channels.

CONTROLLER (A&R)
HESCOM. HUBLI.

- The Executive Engineers (Ele) of respective divisions shall attend one camp meeting / sub-division compulsory and the same shall be video recorded and uploaded to Facebook and YouTube.
- The SEE of respective circles shall visit one sub-division of each division compulsory and the same shall be video recorded and uploaded to Facebook and YouTube. They are responsible for organizing the event in respective circles and calendar of events shall be sent to the CEE, O&M Zone and to Corporate Office.
- The CEE of respective Zones shall visit one sub-division each circle and educate the participants and the same shall be video recorded and uploaded to Facebook and YouTube.

The audio visual aids shall be arranged by the sub-division heads.

This circular shall come into force with immediate effect

Encl:

CYS-689

Date: 30 MAY 2018

Preamble:

All of us are aware, that HESCOM is an essential service organization involved in fulfilling its mission of satisfying its customer by providing uninterrupted quality and reliable power supply at quantitative rates. While perusing fulfillment of mission, dealing with electricity is quite hazardous and lead to accidents if proper care is not exercised in availing line clearance for safe execution of works.

As HESCOM, has a large geographical area with scattered network and most of the Transformer Centers are fed from different sources, hence it is mandatory on the part of the persons who avail LC (Line Clearance) to create a safety zone by isolating on both the sides of the working zone. It is alarming to note that even after initiating many steps for ensuring safety in the field, there are many electrical accidents occurring both fatal and non-fatal to departmental and non-departmental persons.

From the analysis of the accidents reported to this office, it is observed that the occurrence of departmental accidents are due to over confidence- of the field staff and not following the LC(Line Clearance) procedures. The accidents could have been avoided if the concerned field staff had followed the safety procedures like LC(line Clearance), created proper safety zones by using earthing rods checking of alternate sources in the work area and using safety equipments available with them . Several Circulars were issued earlier regarding creating of safety Zone and effective grounding of lines and OTCs before starting any breakdown or preventive maintenance work but no satisfactory results are achieved. As the vision of HESCOM is to achieve zero accidents, the field staff shall ensure work only after taking proper line Clearance.

Hence, this Circular.

CIRCULAR

Sub: Creating Safe Working Zone before carrying out the work and Safety Protocol at work field.

The maintenance staff working in the field while carrying regular maintenance and breakdown works should follow the following safety rules:

**CONTROLLER (A&R)
HESCOM, HUBLI.**

1. The field staff shall wear the uniform compulsorily.
2. Danger boards shall be displayed at the work spots and the necessary barricades erected for the safety of the pedestrians and general public.
3. Each and every work shall be carried out only after availing required and proper line clearance.
4. The person who has availed the line clearance and supervises the work shall be present at the work spot till the line clearance is returned and line charged.
5. The jurisdictional officer/work supervisor shall ensure that necessary safety materials are available with field staff prior to starting of work.
6. All the necessary safety materials such as helmets, belts etc., shall be compulsorily used properly.
7. The work shall be carried out after creating SAFE WORKING ZONE i.e. by isolating both the ends of working zone.
 - Annexure-A shows a schematic procedure of grounding the lines for creating safety zone.
 - Annexure-B shows a schematic procedure of grounding the Distribution Transformers for creating safety zone.
8. Make sure all the 3 blades of the GOS feeding the branch line are opened.
9. The work shall be carried out only after creating safe working zone.
10. Ensure that no alternate sources are feeding that line (bit) on which work is being carried out.
11. Before touching the line the conductors should be discharged properly using discharge rods.
12. For a 11 KV line, the line should be tested by using 11 KV line tester to confirm that the line is dead before starting any work.
13. The Controlling officer shall carry out the test checks and shall ensure that the Safety precautions mentioned above are being adopted during the works and if any violation of the safety procedure has occurred while execution, respective O&M AEE / AE / SO will be held responsible.

The procedures shall be strictly followed failing which action will be initiated against the erring officers.

This circular shall come into force with immediate effect

CIRCULAR

Sub: Regarding identifying and rectification of Hazardous locations and Implementation of safety rules in HESCOM.

It is of great concern to note that in spite of all the concerns about safety, the accidents are still occurring in the field both fatal and non-fatal to departmental and non-departmental persons

Hence it is hereby directed to follow the below steps:

1. Identification of Hazardous Installations/Locations:

The field officers have to identify the following types of hazardous installations.

- Transformer centers
- RMUs
- Ensure proper grounding of transformers
- LT distribution boxes with MCCB in urban areas
- LT protection kits in rural areas
- Use of proper guardings at the locations near schools play grounds crowded business area etc.,
- HT & LT line with loose spans
- Replacement of deteriorated poles
- For any line crossing UG cable/AB cables are to be used
- Street light points and neutral points should be independent to individual DTCs
- Each Section Office shall display DTC wise Feederwise DG set details on Notice board
- Vertical distance between sugar cane crop and electrical line should be maintained as per standards
- Use of intermediate poles or spacers (under critical circumstances where there is loose or long length span.
- Using stud poles instead of guy wires in sugar cane crop fields
- Street light switch boxes having no cut outs or switches or insulated lead wire.
- The field officers shall take up a drive to remove all illegally tied banners, cables to HESCOM infrastructures such as Electric poles, Transformer Centers etc.
- The field officers shall arrange for regular patrolling in their jurisdiction to identify structures, trees and buildings etc., which are in dangerous proximity to Transformers, Poles and lines and are likely to cause damage to HESCOM assets and to public. Notice shall be issued to the concerned in such cases intimating that the damages will be claimed by HESCOM in case of any accidents.
- Snapping of overhead wire are mainly due to tree branches, especially coconut tree branches falling on the line. In these cases notices shall be issued to registered/occupant consumer to remove the entire tree at their cost.

The field officers are directed to submit an action plan for rectification of such locations

**CONTROLLER (A&R)
HESCOM, HUBLI.**

2. Budget Provisions :

For taking up ratification of the hazardous works budget released under PMREA works maybe utilized .

3. Safety equipments :

The Corporate office has provided all the safety equipment's such as Rubber gloves, insulated cutting pliers, safety belts, grounding rods, Reflective jackets ,tool kits etc., to the maintenance staff and procurement for safety belts and LED torch is under process. If any of the safety equipment's which are required are not available the same shall be procured at your end duly observing the corporate norms.

Identification of hazardous installations/Locations : All the hazardous installations/Locations in your jurisdictions shall be identified section wise and intimated to this office in the following format.

Sl.No	Name of the O&M Section	Name of Section Officer	Name of the AEE,	Details of the Hazardous installations/ Locations	Estimate and cost	Work order No . and Date	Work award issued	Target Date of completion

Note :

- The identification of Hazardous installations/ Locations are to done by the end of June month and to be submitted to this office by the end of July month.
- Further estimates are to be prepared by the end of August and work should be carried out without any further delay.
- The above details as per format are to be duly certified by the section officer and the jurisdictional AEE, O&M sub-division certifying that there are no other hazardous installations shall be sent through Executive Engineers(Ele) of O&M Division to the respective Jurisdictional Superintending Engineers (Ele) and CEE under a copy to this office.
- The above details duly certified by the section officer the jurisdictional AEE and EE certifying that there are no other Hazardous installations/Locations other than the above shall be sent to this office .
- The Section office shall submit the estimates in respect of the above to the AEE for issuing necessary work orders and personally pursue with the divisions for issue of work awards collection of materials etc.,
- The date before which the approval is required is to be mentioned in all the correspondence such as preparation of estimates, letters addressed etc., seeking approval under "Tentative Works".
- Necessary photographs has to be taken before taking up the works and after completion of the works , same shall be submitted to the concerned jurisdictional SEE and CEE and also to this office. The above works should be inspected at random by the concerned SEEs / CEEs.
- After the receipt of the above list the TA &QC wing will take up the inspection at random. Any discrepancy found by TA&QC wing will be intimated to Management and the necessary disciplinary action against the concerned will be initiated as per HESCOM rules.

ROLES AND RESPONSIBILITIES IN IDENTIFYING HAZARDOUS LOCATIONS :

1. Section Office

a. Section Officer :

CONTROLLER (A&R)
HESCOM, HUBLI

(PZA) 23/07/2019
HESCOM HUBLI

Section Officer is primarily responsible for identifying the hazardous installations and to take action to set right the defects. He shall exercise proper control over the meter readers as well as the maintenance staff and arrange to get the hazardous installations identified apart from making his own inspections. He shall maintain a separate register called "Control Register" for keeping all the entries regarding the identified hazardous installations. Action taken for the rectification of the above hazardous installations shall be entered in the said Control Register. All the entries such as preparation of estimates issue of awards, target date of completion date etc., shall be entered in the above register.

The Section officer shall invariably daily check the above register and initial for having reviewed the above register and send a telephone message to the sub-division regarding the above and take action for preparation of the estimate and sanction under "Tentative Works" He shall also arrange to collect the materials required for the rectification works.

b. Meter readers :

The meter reader will invariably visit all the installations for taking the meter readings. During the above process he will cover the vast areas where hazardous lines and DTCs are located. Every meter reader at the end of day shall enter such hazardous installations/locations in the control register that has to be maintained at the section office.

c. Maintenance Staff :

The maintenance staff will patrol the areas of their jurisdiction for attending troubles, complaints and for maintenance works. These staff shall record / arrange to record their observations in the control register.

2. Sub-Division Office :

- a. The Assistant Executive Engineer (Ele) O&M Sub-Division shall daily take the feed backs from the section office and inspect the control register of each section under his jurisdiction at least once in a week. He shall follow up right from insisting for the preparation of estimates, issue of work orders and completion of works.
- b. Making available the required materials is the responsibility of the concerned Jurisdictional Assistant Engineer (Ele)/Junior Engineer (Ele) with the support of the Executive Engineer (Ele), O&M Division.
- c. For all the proposals sent by section officer he shall take immediate action either to sanction or return with observation and if necessary send the files to the Division office for sanction. All such proposal and approvals shall be under Tentative works/PMREA process only.
- d. The weekly progress shall be reported to the concerned jurisdictional Executive Engineer (Ele) .

3. Division Office :

The Executive Engineer (Ele) O&M Division shall act as the nodal officer and ensure that all the hurdles in implementing the above are cleared. If any approval is required from the corporate office the same shall be referred for seeking approval.

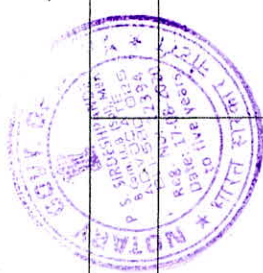

**CONTROLLER (A&R)
HESCOM, HUBLI.**

The Executive Engineer (Ele), O&M Division shall instruct the AEE(O) (Technical) of the office to pursue with the sub-division officers. The reports shall be consolidated sub-division wise and weekly consolidated reports should be sent to concerned Superintending Engineer(EI) and Chief Engineer(EI) with a copy to General Manager (Tech).

Disciplinary Action :

The Corporate Office has directed to take the following actions on the erring Officers / Officials.

CIRCULAR

Sub: Reporting of Electrical Accidents (Both departmental and Non Departmental) in HESCOM.

Ref: T.O Circular No: HESCOM/GM(T)/EE-3/AEE-3/18-19/CYS-688,689,690 Dated : 30.05 .2018.

It is great concern to note that in spite of all the concerns about safety, the accidents are still occurring in the field both fatal and non- fatal to departmental and non- departmental persons. Hence the committee is formed as below.

- Any fatal Accident (Departmental and Non- Departmental) will be enquired by a 3 member committee consisting of 1) Legal Adviser (Retiered Judge), 2) General Manager (Tech), 3) General manager (Admin & HRD).
- The detailed report of the fatal accident (Both Departmental and Non- Departmental) along with findings of Superintending Engineers(Ele) of Concerned circles , duly furnishing primary medical report shall be sent by the Superintending Engineer(Ele) of concerned circles within 3 days for onward initiation of enquiry and further action by General Manager (Admin& HRD) on the causes and to find out the employees responsible for the accident with a copy of the reports to General Manager (Tech) .
- General Manager (Admin & HRD) shall submit the findings of the enquiry to the undersigned for recommending further action within 2 months from the date of accident.
- Whenever any accidents (Fatal, Non- Fatal, Departmental and Non Departmental , Animal) occurs , analysis should be done by the jurisdictional Assistant Executive Engineer(Ele) and the necessary remedial measures shall be carried out and the same shall be furnished along with the detailed report .

CYS-2893

Date: 11 OCT 2019

CIRCULAR

Sub: Creating Safe Working Zone before carrying out the work and Safety Protocol at work field.

- Ref:** 1) T.O Circular No: HESCOM/GM(T)/EE-3/AEE-3/18-19/CYS-688,689,690 Dt :30.05.2018 .
2) HESCOM/GM(T)/EE-3/AEE-3/18-19/CYS-3231,3232 dated : 28.11.2018 .
3) HESCOM/GM(T)/EE-3/AEE-3/19-20/CYS-2547, 2548 dated : 21.09.2019 .
4) Energy Department GoK letter memo No: HESCOM/GM(T)/AEE-3 /19-20 /CYS-1878 dtd: 31.07.2019

As per circular cited in reference it is already directed all the field officers / officials to create safe working zone before carrying out the work at field. Several circulars were issued regarding safety protocol to be maintained and more care has to be taken to reduce electrical accidents.

With consistent approach towards reducing electrical accident lot of PMRA works have been carried out. But more emphasis is to be given for safety of field staff. Thus all the field staff are to be trained regularly regarding safety measures to be taken by them. Also public awareness programs are to be conducted regarding electrical safety. All the deteriorated conductors, poles and insulators are to be replaced regularly. Any private property constructed under H.T/L.T line is to be checked and notice is to be issued to such property owners for violating safety rules as per safety standards and KERC Safety Regulation 2004.

CONTROLLER (A&R)
HESCOM, HUBLI.

Furthermore all O&M AEEs shall inspect that all field staffs are using safety equipment's and creating safe working zone mandatorily at the time of Line clearance and also during regular maintenance works.

Further a random check of such works shall be carried out by:

- 1) The Executive Engineer of Division – 25%
- 2) The Superintending Engineer of Circle – 10%
- 3) The Chief Engineer of Zone --- 5%

The procedures shall be strictly followed failing which action will be initiate against the erring officers.

This circular shall come into force with immediate effect
